Bilateral Meetings

- 10.15 - 12.30

Description

We are a medium-sized construction company operating in the Pirna/Dresden area and Saxon Switzerland. bendl HTS was founded in 1994 and is one of the leading construction companies in the region with approx. 70 employees. Since then we have been implementing construction projects with a wide variety of requirements with our own employees. Our focus is on building construction, industrial and commercial construction and renovation/modernisation. We also erect many turnkey projects. We can rely on a large network of planners, architects and regional craftsmen. We cooperate with the Technical University Dresden and the University for Technology and Economics in Dresden. We train our junior staff ourselves.

Realizujeme stavební projekty a projekty na klíč. Zaměřujeme se na pozemní stavitelství, průmyslovou a komerční výstavbu a renovaci / modernizaci. Máme k dispozici velkou síť projektantů, architektů a regionálních řemeslníků. Spolupracujeme s Technickou univerzitou v Drážďanech a Univerzitou pro technologie a ekonomiku v Drážďanech.

Organization Type

Company

Areas of Activities

Construction of buildings

Request

subcontracting wanted for construction works

In order to expand and expand our network, we are seeking contact with Czech construction companies in the northern border region who are interested in cooperating with our company.

Topics would be joint municipal projects, employee exchange, subcontractor management (masonry and concrete work) or apprentice training.
